

We Proudly Support CUREageous

Thank you Illinois CancerCare for your steadfast dedication to providing exceptional care for your cancer patients and allowing Oncology Supply to be your distributor of choice. Together, we are united in the responsibility to create healthier futures.

AmerisourceBergen

in collaboration with

We are proud to support CUREageous and the Illinois CancerCare Foundation.

Together, we serve our local communities because we believe a **connected world** is a **greater world**.

Find out how we accelerate the digital business of our clients at www.dimensiondata.com.

Dear CUREageous Friends and Supporters,

It is my pleasure to welcome you to our 9th Annual Illinois CancerCare Foundation CUREageous event! We are so Grateful for your support. This evening's Outrageous Party will celebrate patients and their family members, caregivers, physicians, researchers and staff who are committed to improving cancer patient's lives throughout central and western Illinois.

Since 2001, No One Fights Alone has been the mantra of the Illinois CancerCare Foundation. We want every cancer patient to have every weapon available in the battle against this disease. The funds we have raised over the past 17 years help make that possible every day for local cancer patients.

The Foundation got its start as a way to manage donations from patients and families who wanted to give back and help further the cause. But it wasn't long before the physicians at Illinois CancerCare, P.C. realized the Foundation could play a much bigger role in the fight by helping fund clinical trial research. Today the Foundation provides \$400,000 a year to support the shortfall in the clinical cancer research program. This research program accelerates the development of interventions for preventing, treating, recovering from and curing cancer. The Foundation's support allows Illinois CancerCare, P.C. to keep more than 100 trials open locally at any given time.

CUREageous is our signature fundraiser of the year. Tonight's proceeds fund clinical research, education, and patient support and assistance programs. All money raised stays local, giving cancer patients the very best cancer care possible right here in their hometown. Your partnership keeps HOPE alive!

Since we opened, 10,000 Illinois CancerCare patients have participated in almost 1,500 nationally renowned clinical cancer research trials while staying in their home surrounded by family and friends.

Hope. It is something we can all provide during a cancer diagnosis. Your participation this evening provides genuine hope and loving compassion to those forever touched by cancer. On behalf of our Board of Directors, Advisors, and Young Leaders, and our CUREageous event committee, thank you for joining us and for giving so generously.

Friends in the Fight,

Tenda Que The

DR. SUDHIR MUNGEE

Interventional Cardiology | OSF Cardiovascular Institute

Tell us about you - Where did you grow up? Where did you go to school? What makes you, YOU?

I grew up in India, where I did my Medical schooling. I did cardiology research at Michigan State University & all my advance training in Medicine and Cardiology was in NY, NY.

Passion, excellent work ethics and focus to achieve bigger goals keeps me motivated and makes me who I am today.

Looking back over your career, what are you most proud of?

My ability to turn around adversity and lows in to HIGHS by shear grit and determination with lots of hardwork. My journey from a small town back to mainstream Cardiology is what I am real proud of.

How do you spend your time when you're not working? What do you like to do to relax?

Spend time with family, play with kids, cook, travel and music.

If you had an extra four hours in the day, how would you fill that time?

Just be with family, cuddle with them chat and giggle.

What made you choose to get involved in research?

The Quest, explore and be a mentor to the fellows and find answers to their endless queries.

Tell us about the best part of your work.

To be able to relieve pain of someone at any hour of the day, see tears of joy and relief on a family members face after a successful procedure, be able to have fun with staff, to help fellows acquire skillset and then see them mature and fly on their own.

DR. JONATHAN ROBERTS

Hematology

y | Bleeding & Clotting Disorders Institute

Tell us about you - Where did you

grow up? Where did you go to school? What makes you, YOU?

I grew up in central IL and moved to the Peoria area when I was II years old. I have a personal history of severe hemophilia A, and as early as I can remember have aspired to become a hematologist, focusing on hemophilia, hemostasis, thrombosis and other benign hematologic disorders. I went to high school at Peoria Christian School here in Peoria, undergrad at Greenville College in Greenville, IL majoring in Chemistry and Biology, and went to medical school at Southern Illinois University. I completed residency in pediatrics at UICOMP/OSF St. Francis and completed fellowship in pediatric Hematology/Oncology/BMT at the Medical College of Wisconsin. I was cross-trained in pediatric and adult bleeding disorders management with esteemed faculty at the BloodCenter of Wisconsin and maintain many research collaborations with them since coming back home to Peoria in 2014. Having severe hemophilia is integral to who I am and is a constant motivating factor in my patient care and research aspirations.

My Christian faith and my family are central to my life. I have a beautiful and supportive wife, Laura, and my wonderful and busy children, Ian, Charlie, Alayla, and Reed. When I'm not at the hospital, BCDI, or traveling for research conferences/meetings, I am taking boys to baseball games, working on our land and home with Laura, or doing other family activities. We love camping and the outdoors and hanging out with our extended families on both sides in the area as well as with close friends. Looking back over your career, what are you most proud of?

I am proud to have attained my lifelong dream of being a hematologist. Everything else I accomplish is just a bonus. I'm excited to see where the next 30+ years of my career take me and my family.

How do you spend your time when you're not working? What do you like to do to relax? Love to relax outdoors, get much needed and deserved breaks and time away from the kids with Laura. I enjoy cooking, grilling, and am a foodie in general. Enjoy spending time with friends and family.

If you had an extra four hours in the day, how would you fill that time?

#I – Sleep. Otherwise would spend time with the family, playing with the kids.

What made you choose to get involved in research?

Research is integral to the field of medicine. In my opinion, it's especially interesting in hemostasis and thrombosis. Our national and international research community is close-knit and it's fun to have collaborations all over the world. It's exciting to continue to develop and lead collaborative projects, especially this early in my career.

Tell us about the best part of your work. Developing relationships is the best part of my work. Relationships with patients, BCDI staff, research collaborations, and the Peoria area medical and professional community, keep me going. Motivation comes from being able to positively impact other peoples' lives in multiple arenas. I love that every day is different. It can definitely be challenging at times, but it's

DR. STEVEN TSORAIDES

Colorectal Surgery | Peoria Surgical Group

Tell us about you - Where did you grow up? Where did you go to school? What makes you, YOU?

I was born in Indiana but grew up in Lansing, Illinois. I attended TF South High School then on to Loyola University in Chicago. I attended medical school in Peoria at the University of Illinois College of Medicine. I am Greek and have spent summers in Greece where I was baptized at the church where both my father and grandfather were baptized.

I think I have a good sense of humor and a strong sense of determination – which my wife calls stubbornness. I have a passion for life, people, and progress. Also love.

Looking back over your career, what are you most proud of? Being part of a continued legacy of strong surgical care and education in Peoria. And being looked to as a leader in cancer care.

How do you spend your time when you're not working? What do you like to do to relax?

Family time, visiting friends, traveling, cooking and enjoying good wine. Chillin' on the couch with good movies. We love being on the beach and, of course, watching our son grow.

If you had an extra four hours in the day, how would you fill that time? Sleep

What made you choose to get involved in research?

We have to challenge the status quo to make progress. If we don't ask the right questions, we won't get the right answers.

Tell us about the best part of your work.

The people. The people on my team. The people we care for. The people we educate. Everything good in life comes down to people.

STRIVING TO OUTSMART CANCER. TOGETHER.

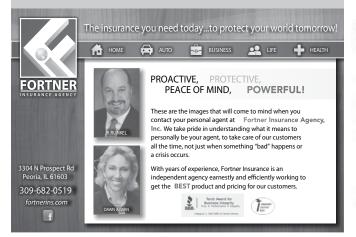

At AbbVie, we build bonds with oncologists, patients, payers, advocacy groups, health authorities, and other pharmaceutical companies, because we know that advancing the science of this devastating disease is not something that one person, or even one company, can do alone.

Together we can conduct research that deepens our understanding of the disease and its pathways, to ultimately develop new molecules that make a transformational improvement in cancer care.

#### CELEBRATING THE LIFE OF OUR FRIEND

Gerald D. Stephens

It is not so much for its beauty that the forest makes a claim upon men's hearts, as for that subtle something, that quality of air that emanation from old trees, that so wonderfully changes and renews a weary spirit.

Robert Louis Stevenson

# BEST WISHES Lauren

#### THANK YOU FOR YOUR YEARS OF DEDICATED SERVICE TO THE FIGHT

The Foundation's Trust in Hope program provides compassion and support to cancer patients and their families during what can be a trying time – the holidays. Providing Thanksgiving meals to patients with financial need and Christmas gifts to families dealing with a terminal diagnosis or financial need.

In the last 9 years, Trust in Hope has delivered over 2,000 Thanksgiving meals and nearly 125 families with over 300 children have received holiday gifts.

## Power of Strength
