CUREageous

Outrageous Mission to Find a **CURE.**
November 10, 2017

All proceeds will fund local clinical research, education,
and patient assistance programs supported by

ILLINOIS CANCERCARE
foundation

Proudly Supports CUREageous

Thank you, Illinois CancerCare, for your steadfast dedication to providing exceptional care for your cancer patients, and allowing Oncology Supply to be your distributor of choice! Together we aim to conquer cancer, one patient at a time.

in collaboration with

We are proud to support CUREageous and the Illinois CancerCare Foundation.

Together, we serve our local communities because
we believe a *connected world* is a *greater world*.

Find out how we *accelerate the digital business* of our clients at www.dimensiondata.com.

Dear CUREageous Friends and Supporters,

It is my pleasure to welcome you to our 8th Annual Illinois CancerCare Foundation CUREageous event!!! We are so **Grateful** for your support. This evening's Outrageous Party will celebrate patients and their family members, caregivers, physicians, researchers and staff who are committed to improving cancer patient's lives throughout central and western Illinois. This year the Foundation is also celebrating our "Sweet 16" birthday.

Since 2001, No One Fights Alone has been the mantra of the Illinois CancerCare Foundation. We want every cancer patient to have every weapon available in the battle against this disease. The funds we have raised over the past 16 years help make that possible every day for local cancer patients.

The Foundation got its start as a way to manage donations from patients and families who wanted to give back and help further the cause. But it wasn't long before the physicians at Illinois CancerCare, P.C. realized the Foundation could play a much bigger role in the fight by helping fund clinical trial research. Today the Foundation provides \$400,000 a year to support the shortfall in the clinical cancer research program. This research program accelerates the development of interventions for preventing, treating, recovering from and curing cancer. The Foundation's support allows Illinois CancerCare, P.C. to keep more than 100 trials open locally at any given time.

CUREageous is our signature fundraiser of the year. Tonight's proceeds fund clinical research, education, and patient support and assistance programs. All money raised stays local, giving cancer patients the very best cancer care possible right here in their hometown. Your partnership keeps HOPE alive!

Over the past 16 years, almost 6,000 Illinois CancerCare, P.C. patients have participated in over 1,400 nationally renowned clinical cancer research trials while staying in their home surrounded by family and friends.

Hope. It is something we can all provide during a cancer diagnosis. Your participation this evening provides genuine hope and loving compassion to those forever touched by cancer. On behalf of our Board of Directors, Advisors, and Young Leaders, and our CUREageous event committee, thank you for joining us and for giving so generously.

DR. RICHARD ANDERSON

Thoracic Surgery | Peoria Surgical Group / University of Illinois College of Medicine

Tell us about you.

I grew up in Yorkville, Illinois. I went to Benedictine University then Loyola Stritch School of Medicine. I started my surgical training at Loyola and finished my General Surgery residency at the University of Illinois College of Medicine at Peoria. I continued my training at Washington University in Cardiothoracic Surgery specializing in Thoracic Surgery. I came back to Peoria and started practicing in 2000. I married my high school/college sweetheart, Becky Hanback, and together we have six children.

Looking back over your career, what are you most proud of?

I am very proud of my involvement in the Lung Cancer Clinic and Development of the Thoracic Surgery Center of Excellence.

How do you spend your time when you're not working? What do you like to do to relax?

I like to spend quality time with my family. I enjoy hunting and fishing. I like to relax with a lazy day by the pool with friends and family.

If you had an extra four hours in the day, how would you fill that time?

One hour working out or riding my bike. One hour of additional sleep. Two hours with my family.

What made you choose to get involved in research?

The chance to improve patient outcomes and quality of life. There is a need for doctors and scientists to advance the field of research.

Tell us about the best part of your work.

When I wake up each morning I have a chance to reflect on my coming day and the opportunity to make significant changes in my patients' lives while I have breakfast with my Labrador retriever. I also enjoy the end of my day to reflect on what I have done and wanted to do.

DR. MADHURI BAJAJ

Hematology/Oncology | Illinois CancerCare, P.C.

Looking back over your career, what are you most proud of?

My involvement in research from undergraduate training onwards has led to multiple publications. I am particularly proud of my publication in the *New England Journal of Medicine* in 2016.

How do you spend your time when you're not working? What do you like to do to relax?

I engage in full-time mom duties. I look forward to my daily family time. I also like to work out, dance, participate in cultural activities, cook, and I love the outdoors (hiking, biking, rafting, canoeing, kayaking). And, of course, spending time with my kids and husband.

If you had an extra four hours in the day, how would you fill that time?

All those things in the previous answer!

What made you choose to get involved in research?

I have been involved in research since my University of Illinois days. Once I entered

medicine, it seemed natural to me to understand drug development and tie that into clinical medicine. Before medical school, I worked in the pharmaceutical research/biotech industry. Research enables me to bring more to the table when I care for my patients.

Tell us about the best part of your work.

I see a variety of patients and disease subtypes in my practice and this keeps my work always interesting. I have access to clinical trials so I feel I am giving my patients cutting edge/breakthrough therapies. My peers/co-workers are dedicated to the field of cancer medicine which makes for a motivating environment.

DR. GLYN JONES

Cosmetic and Reconstructive Surgery | Illinois Cosmetic and Plastic Surgery

Tell us about you.

I have been married to my wife, Hilarie, for 40 years. We have three children and eight grandchildren. Sixty-two years ago, I was born in Rhodesia (Zimbabwe) in Africa. I graduated from medical school from the University of Rhodesia. My postgraduate residency training in General Surgery and Plastic Surgery was from both Rhodesia and Cape Town, South Africa. Additional fellowship training was from East Virginia Graduate School of Medicine in Norfolk, Emory University in Atlanta, and Washington University in St. Louis. I was Associate Professor of Plastic Surgery at Emory University for 15 years. I have been at University of Illinois College of Medicine for the past ten years as Professor of Surgery (Plastic).

Looking back over your career, what are you most proud of?

My contributions to the area of surgery reconstruction and development of the pre-pectoral approach. Books that I have written: *Plastic and Reconstructive Surgery of Breast* and *Reconstructive Surgery FLAPJ and Techniques*.

How do you spend your time when you're not working? What do you like to do to relax?

I like to travel with my wife, play the guitar, paint, build model railroads, and woodworking.

If you had an extra four hours in the day, how would you fill that time?

Spend them with my wife relaxing.

What made you choose to get involved in research?

A desire to advance the care of my patients.

Tell us about the best part of your work.

A love of being in the operating room and knowing that I can change and improve my patient's lives. And being creative in designing new procedures.
