8:30 PM

Silent Auction Closes!

SCHEDULE

THANK YOU

SPONSORS

Dear Friends in the Fight,

Thank you for choosing to accept tonight's mission... It is my pleasure to welcome you to our 12th Annual Illinois CancerCare Foundation CUREageous event!

Even though we are unable to gather in person for this evenings Outrageous Party, we guarantee you a night filled with adventure, fun and fight!

We assembled the best special technicians team from the Impossible Missions Force (IMF) to bring tonight's program to you.

Since our founding in 2001, the Foundation has been dedicated to funding cutting-edge clinical trial research, patient services, community grants and educational programs throughout central and western Illinois.

As we celebrate the Foundation's 20th Anniversary, we want to THANK YOU!

Looking back, 2020 was a year that revealed the strength, perseverance and courage of our Illinois CancerCare Foundation community, patients, donors and staff. Your unwavering support kept our mission going.

Whether you are a Foundation supporter since 2001 or joined us sometime along the way, your contribution allows us to make sure every local cancer patient has access to every possible weapon in the battle against cancer.

Illinois CancerCare is THE cancer research arm for the many communities we serve – and YOU keep us armed to stay on top of the ever-evolving care.

Tonight we will celebrate cancer patients and their families, local physicians dedicated to research, and a cancer researcher committed to improving the lives of cancer patients in our communities. Your participation this evening provides much needed funding, genuine hope and compassion to those forever touched by cancer.

Help us turn MISSION: IMPOSSIBLE TO MISSION: ISPOSSIBLE!
On behalf of our Foundation Board of Directors, Young Leaders, and CUREageous committee, THANK YOU for joining us tonight and for giving so generously.

Although we are not all together in one room tonight – we are connected by one mission!

Tanda J. Thompson

SO... WHAT'S IN THE BAG?

Thanks to these local partners, your WATCH PARTY Bag is complete with all the supplies to make CUREageous come to life... no matter where you are joining us from tonight!

PARTY PACKS:

BREAD
PAIRINGS:

CHEESE FONDUE,
PAIRINGS
& DESSERTS:

CUREtini
SUPPLIES:

CURETINI RECIPE

Enjoy our signature drink

- Ice
- 1.5 oz. of Deep Eddy
Orange Vodka
- 2 oz. Bacardi Rum
- 2 oz. Cranberry Juice

Shake it up!
Enjoy!

CANDACE CORREA, M.D.

Radiation Oncology | UnityPoint Healthcare - Methodist

Tell us about you - Where did you grow up? Where did you go to school? What makes you, YOU?

I grew up in Detroit Michigan and spent most of my life there. I went to undergraduate at the University of Michigan College of Engineering, medical school at the University of Pennsylvania, and then back to the University of Michigan for Radiation Oncology residency. I also did a research fellowship in Breast Cancer Research at Oxford University in England during my residency.

My friends and family would say I am intelligent, loyal, stubborn, funny, and determined.

Looking back over your career, what are you most proud of?

Both of my parents had cancer and my dad passed from this. He made a lot of sacrifices for me to become a doctor. I like to think that I honor his memory by helping cancer patients like him. It is especially rewarding when you really connect with a cancer patient and do something a bit out of the box that results in a good outcome.

How do you spend your time when you're not working? How do you like to relax?

I am usually spending time with my family and cat, traveling, or running. I like to exercise or read to relax.

If you had an extra four hours in the day, how would you fill that time?

I would probably read more than I do now. I like autobiographies, some historical works, and social science type books (think Gladwell or Taleb).

What made you choose to get involved in research?

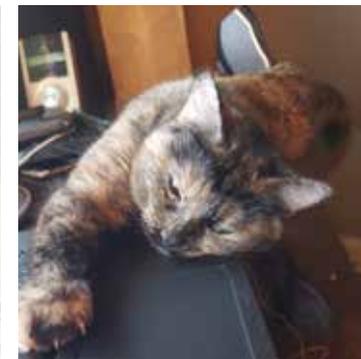

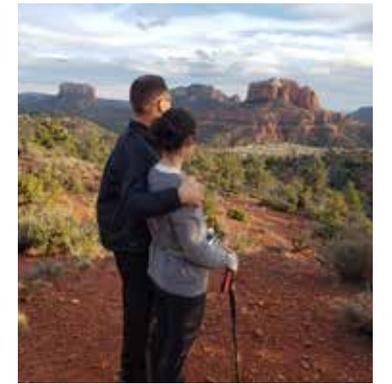

I have always had a passion for cancer research because it is how we advance our understanding of cancer, which is ultimately what results in patients living fuller, longer lives. For example, breast cancer survival has increased over 30% the past few decades. That is millions of moms, grandmoms, sisters, friends living happy and active lives today because of improvements in treatments. I like being able to offer promising treatments early on (currently only available on a clinical trials) to patients that often time end up being standard treatment years later.

Tell us about the best part of your work.

I am in my element when I am being a good shepherd /teacher/ guide for my cancer patients –helping them understand their disease and why we are recommending the treatments we are and how this will affect their lives. It is also an everyday inspiration for me to see how brave patients are in the face of adversity and how so many of them can handle things with such grace.

Favorite song?

Billie Jean by Michael Jackson is one of my favorites.

GREGORY J. GERSTNER, M.D.*Oncology / Hematology* | Illinois CancerCare**Tell us about you - Where did you grow up? Where did you go to school? What makes you, YOU?**

I grew up in Morton, IL. Graduate of 1994. Go Potters. Attended undergrad at U of I. Oskeewowow, Go Illini! Med school at SIU (no particular love for the Salukis, sorry...although no dislike either). Residency at U of Texas – San Antonio (my wife received her masters from UTSA at the same time.....they defeated the Illini this year and are on their way to a potential undefeated season!). Fellowship at U of Arizona (Tucson, still considered a rival to my Illini, playing this year again in basketball).

What makes me, me? That's a bit broad. Influenced by growing up as the son of an oncologist, although this was not my initial plan for career.....doctor, but not necessarily an oncologist. I quote a lot of TV and movies. In particular, obscure quotes from SNL (for example, Tiny Elvis is VERY popular at my house). My med school classmates referred to me as Hollywood Greg due to my collection of movies, a homage to Hollywood Video for those that have grown up not knowing video rental stores. Yes, people used to actually own physical copies of things. Probably not coincidentally, I worked at Blockbuster Video in college, and still incorporate my employee ID in many of my secret passwords. I enjoy soccer and college sports. I love hiking and biking. I really enjoy traveling with friends and family. My traveling experience was forever changed by a non-profit event for Peoria Promise (which my wife "used to be the executive director for) where our table bid on and won a private villa vacation in Jamaica (thanks to Alexis Khazzam). I'm a bicentennial Minnesota Twin. I love wood watches. I'm starting to feel like this profile could be used to answer all of my secret questions online, so you may not want to publish in its entirety.

Looking back over your career, what are you most proud of?

I'm most proud of helping to continue to grow an oncology practice that emphasizes patient care by taking care close to the patient and providing trial options to patients. As part of that, helping to influence the growth of our Foundation which is necessary to provide access to trials for our patients (I would never take credit for the actual growth, that credit goes to our Foundation team and directors)

How do you spend your time when you're not working? How do you like to relax?

As above, watching TV and movies, riding my bike/ Peleton, hanging with my family (lately lots of board games), traveling, heading to our place in Muskegon.

If you had an extra four hours in the day, how would you fill that time?

Same as last question, to me. I guess also filling out surveys about myself.

What made you choose to get involved in research?

I think its vital that we provide opportunities for patients to help advance the field of oncology.

Favorite song?

Favorite song is Pearl Jam Black, I guess, but as I said in my interview that's a tough one. Favorite artists: Billy Joel, Pearl Jam, Ed Sheeran, James Blunt, Dave Matthews, Garth Brooks, Taylor Swift, Halsey, Beastie Boys, Counting Crows, Harry Connick Jr, They Might Be Giants, Tool, Phish. I also have a love for Broadway Theater. I'm always up for any song that might be inspiring for my patients, even the sad ones (on more than one occasion I've shed a few tears belting away to a song on my drive to Peru or Muskegon).

Cancer Playlist:

The Climb – Miley Cyrus
 Good Riddance (Time of Your Life) – Green Day
 Live Like You Were Dying – Tim McGraw
 Happy – Pharrell Williams
 Fight Song – Rachel Platten
 F You – Lily Allen
 Memories – Marron Five – Utah Children's Choir (duped into thinking these were all St Jude kids)
 The Good Stuff – Kenny Chesney

Tell us about the best part of your work.

I primarily enjoy talking with patients and finding out how/what they're doing. I think the thing that also gives me goosebumps or makes me smile is hearing about the things they're able to go to or do, like weddings, anniversaries, first grandchildren, or even throwing the opening pitch at the Cubs game!

PATH *of hope* TRIBUTE GARDEN

Looking for a way to honor a loved one, neighbor, friend or colleague who has fought or is fighting cancer?

Whether it's a special message engraved along our ribbon walking path, or a bench nestled in the perfect spot, tributes can mark all of life's important moments: Birthdays · Anniversaries · Retirements · Memorials · Treatment Milestones · and more!

These meaningful tributes will become a permanent part of our Path of Hope Tribute Garden. Through such gifts, the Illinois CancerCare Foundation is able to fulfill our charitable mission of ensuring **no one fights alone**.

CREATING HOPE THROUGH INNOVATION

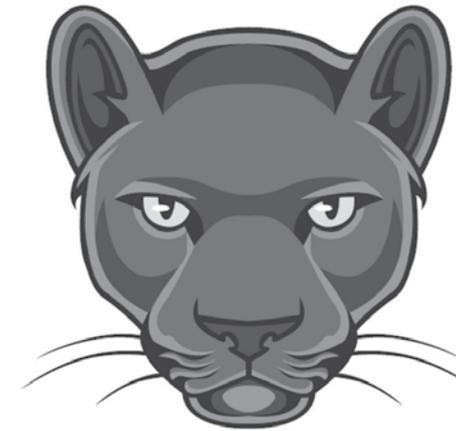

At Eisai, everything we do is guided by a simple principle: patients and their families come first. We spend time with them. We listen and we learn about their lives, their desires and their greatest needs. We call this *human health care* or *hhc*, giving first thoughts to patients and their families and helping increase the benefits health care provides.

Our *hhc* mission is what drives us to discover innovative solutions and therapies that help address unmet needs within the communities that we seek to serve.

Eisai is proud to support CUREageous.

**FOR 20 YEARS
OF SUPPORT**

For 20 years we have been giving cancer patients and their families greater access to advanced treatment options and greater HOPE close to home! The Illinois CancerCare Foundation is committed to funding Research, Education and Awareness of a disease which affects 1 in 3 people. As we fight to find cures through nationally recognized research initiatives, it is our strong belief that our patients must have available to them every possible weapon in their battle.

CANCER. *IT'S PERSONAL.*

Do I need to make lifestyle changes?
Will I be able to work? **What if it comes back?**

We're here to navigate you through the uncertainty that comes with cancer, providing treatment in a safe environment designed to reduce stress. You'll have an experienced team, including a nurse navigator, focused on your physical, mental and spiritual needs throughout your individual journey.

We're ready to fight with you. Because for all of us – it's personal.
